Attn: Decision and Certificate of Correction  
Branch of the Patent Issue Division

Dear Sir:

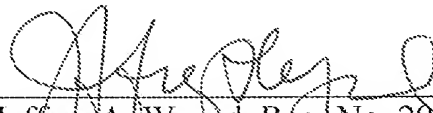

It is requested that a Certificate of Correction be issued to correct an error found in the above-identified patent. Attached hereto is a Certificate of Correction, which indicates the requested correction.

The patent application that matured into the referenced patent was filed with an Application Data Sheet correctly identifying the second inventor as Luc BOULAT. When the Declaration was filed, after the filing of the patent application, the printed name of the second inventor correctly appeared on the Declaration. The signature of the inventor may have partially obscured the inventor's first name. The filing receipt issued with a Notice of Acceptance on March 21, 2007 included an incorrect spelling of the second inventor's given name that was inconsistent with the previously filed Application Data Sheet. This error, attributable to the U.S. Patent and Trademark Office, was not detected and no correction was requested during the pendency of the patent application.

Patent Number 7,891,303  
Patentee(s): DUPONT et al.

It is believed that there is no charge for this request since the patentees were not responsible for the error, as will be apparent upon a comparison of the issued patent with the application as allowed.

Respectfully submitted,

Jeffrey A. Wyand, Reg. No. 29,458
